

The Science and Implementation of Neuroprotective CPR

A Preconference Educational Symposium at Tidewater Healthcare Expo

May 15, 2024

Please join us to learn more about a successful new approach to resuscitation using Neuroprotective CPR, and how the Chesapeake Fire Department is successfully deploying this approach.

This half day educational symposium in advance of the Tidewater Healthcare Expo will feature thought leaders from across the US and the opportunity to network and discuss your approach to resuscitation with your colleagues and neighbors.

MAY 15, 2024

8:30-12:30

Marriott Chesapeake, VA

You will learn about:

- The science and physiology of Neuroprotective CPR
- Chesapeake Fire Department's Journey to using Neuroprotective CPR
- Best practices in implementing this approach to resuscitation
- Best practices in data collection and quality improvement
- Hands-on demonstrations of the approach in action.

Speakers include:

- **Dr. Keith Lurie** – Electrophysiologist, and world-renowned expert in the resuscitation of patients suffering sudden cardiac arrest. Chief Medical Officer of AdvancedCPR Solutions
- **Dr. Lewis Siegel** – Chief, Department of Emergency Medicine Chesapeake Regional Medical Center
- **Ryan Quinn** – Director of Clinical Services at Lakes Region EMS in Minneapolis, MN
- **Lauren Emanuelson** - Race to the Top Coordinator for Advanced Medical Transport in Peoria, IL
